OH BABY BRAND CARE LABEL INFO

SEWN-IN UPC LABEL IDENTIFICATION
• Kohl’s requires a sewn-in UPC number label on any product that is required to have a sewn-in care label
  o Sewn-in UPC label allows immediate identification in the absence of a retail ticket
  o Sewn-in UPC label increases efficiency at the point of sale and while processing customer returns
• The UPC number label may be attached beneath the sewn-in care label
  o The UPC number may be woven into or printed onto the sewn-in care label
• For children’s product, the UPC may be printed or woven into the CPSIA tracking label
  o For detailed information regarding the CPSIA tracking label requirements, review the document titled Consumer Product Safety Improvement Act of 2008 Tracking Label Requirements posted on the Legal Requirements tab on Kohl’s Connection website
  o In the event that a vendor discovers challenges in attaching the required permanent tracking label to any particular product(s) and/or a vendor believes that this type of labeling is not practical for any particular product(s), the relevant Kohl’s Product Manager should immediately be contacted. It is Kohl’s expectation that, in any such event, the vendor will provide suggested corrective actions

Merchandise Categories Requiring a Sewn-in UPC Label (including Private Label and Vendor’s Line):
• Apparel

Sewn-in UPC Label Placement:
• Sewn-in UPC label must be sewn in to the merchandise, directly beneath the care label
  o Edges of the sewn-in UPC label must not show from beneath the care label
  o UPC numbers may be woven into or printed onto the care label instead of using a separate sewn-in UPC label
• Label may be in the neckline or in a side seam
• UPC number must face up, toward the viewer
• Product color or size may be printed on the sewn-in UPC label for reference if desired, but neither is required

Each bag must have a small gum price label placed in the center of the front side of the poly bag. They may be ordered from Avery Dennison or your own local supplier. Avery Dennison’s style is KOH-9099-GN. If you order from a local supplier it must be submitted to the vendor relations manager at DMC for approval.

   Retail price hang tag is still required for the garment inside of the bag.

   Please see below chart for additional details.

Any Cancellations or Shortages Greater Than 3% Will Generate A Chargeback Of 50% Of The FOB Cost For The Pieces/Pre-Packs Missing (Or 50% Of The LDP Cost, Depending On The Terms Of The Order). Kohl's Private Brand Odd Lot Shipment Policy

Kohl's Odd Lot Policy: **"ODD LOTS" OF PRODUCT MUST NOT BE SHIPPED WITH ANY PREPACK SHIPMENT.**

Definition of "Odd Lots":

"Odd Lot" is defined as that product which remains after complete Prepacks have been assembled to fill a Kohl's Prepack Purchase Order. Assuming there is a shortage/average of a color/size needed to complete the required number of Prepacks; the **partial Prepacks must be dis-assembled and prepared for shipping as a Bulk Shipment.**

Shipping Odd Lots:

1. The remaining goods (that are within Kohl's guidelines of approved overages) must be sorted to solid style, solid color, and solid size level and packed in that same format. (One style, one size, one color to a carton.)

2. If there is a Bulk Order scheduled to follow the Prepack Order, hold the overages and ship with the Bulk Order.

3. If there is no Bulk Order to follow, notify the Product Manager about the "Odd Lot" goods via E-mail, stating:
   - style
   - colors
   - sizes
   - number of units, per each

4. A new Bulk Purchase Order will be issued for the goods.

5. This last situation should be the "exception to the rule".

Bulk Carton Markings:

**IDENTIFY THE CONTENTS** on the outside of the cartons as you would for any Bulk (solid style, solid color, solid size) shipment.

**SIDE MARK**
- Kohl's Purchase Order Number:
